At the Helm

Thank you Pelican Isle Yacht Club

It was a fantastic evening at the newly renovated Pelican Isle Yacht Club with special presentations given by Dan Thompson of Gulf Shore Insurance about group health care and the MIACC board regarding an in-water show during the January Naples Boat Show! Special thanks to Molly's Marine for the raffle benefiting the MIACC Foundation!

MIPAC 2nd Quarter Contributions

Marine Industries Promoting Access for Citizens

In 2002 the Marine Industries Association of Collier County formed a Political Action Committee named Marine Industries Promoting Access for Citizens (MIPAC). This action was taken so that we can support issues and legislative candidates who assist the goals and purposes of the marine industries community.

On a quarterly basis, the MIPAC seeks donations of \$50.00 from each member. The MIPAC's mis-

sions and goals are to act upon problematic issues that must be addressed at the legislative level for the growth and protection of the marine industry. Monies collected from the MIPAC donations are used in supporting political decision makers that will tackle the very issues that affect all members of our industry. As a good steward of our member's donations, MIPAC adheres to uniform contribution criteria when determining how much and

to which candidate assistance is allocated.

MIPAC will educate you about the political landscape and issues facing our organization and will strategize political impact. In addition, the committee is always open to suggestions, questions and comments.

Please send your quarterly donations to MIPAC, PO Box 9887, Naples, Florida 34101

2nd Quarter contribution requests will be coming soon! Please make checks payable to MIPAC

The MIACC represents you, the marine business owner and your business interests to the government and to the public. At a time when government regulations are expanding, the MIACC is striving to work with government - locally, statewide and nationally to protect equally all marine business concerns. Our goal is to inform our members how their business will be affected and how solutions can be reached if new regulations are at odds with marine business interests. In addition, it is equally important to work with the public in preserving their right to safe and fun boating. The MIACC works with educators and safety organizations to educate the public to practice safe boating. The MIACC also encourages members to put in place hands-on environmental business practices that will prevent pollution and damage to our coastal waters thus protecting boaters' enjoyment of healthy waterways and ensuring a sustainable future for the environment and the marine industry.
