PIYC Summer Maintenance Project

Preventive Maintenance

Pelican Isle Yacht Club recently welcomed Bellingham Marine on-site to perform a comprehensive inspection and tightening of our newly installed floating docks. This proactive maintenance effort reflects the Club's ongoing commitment to providing a safe, high-quality marina experience for its Members and guests. The inspection and tightening service was completed on 112 of the Club's 190 slips, as the remaining 78 slips are fixed docks and do not require this specific type of attention.

The scope of the work focused on ensuring that key structural components such as fiberglass through-rods, triangle frames, and whaler boards remain properly secured and aligned. These elements are critical to the overall performance and stability of the floating dock system, especially in a marine environment where constant exposure to tides, waves, and vessel activity can gradually cause wear and shifting.

By contracting Bellingham Marine, an industry leader in marina construction and maintenance, Pelican Isle Yacht Club continues to uphold the highest standards in marina care and infrastructure longevity.

Preventive maintenance like this is not just routine it's essential to preserving the value, safety, and functionality of the Club's waterfront facilities. Identifying and addressing potential issues before they escalate helps avoid costly repairs, reduces unexpected downtime, and ensures the docks remain in top condition for years to come. Simply put, the best maintenance is preventive maintenance, and PIYC is proud to lead by example in maintaining one of the premier Marinas in Southwest Florida.

Using Social Media & Email Marketing to Advertise Your Boat Trailers

Social media platforms like Facebook, Instagram, and YouTube provide valuable opportunities to showcase products, share customer stories, and build a loyal community. At the same time, email marketing allows for direct, personalized communication. When combined, these tools can help expand your reach, strengthen customer relationships, and drive more sales, all without the need for a large budget. Even small but consistent efforts can significantly boost visibility and growth.

MIPAC 3rd Quarter Contributions

Marine Industries Promoting Access for Citizens

In 2002 the Marine Industries Association of Collier County formed a Political Action Committee named Marine Industries Promoting Access for Citizens (MIPAC). This action was taken so that we can support issues and legislative candidates who assist the goals and purposes of the marine industries community.

On a quarterly basis, the MIPAC seeks donations of \$50.00 from each member. The MIPAC's mis-

sions and goals are to act upon problematic issues that must be addressed at the legislative level for the growth and protection of the marine industry. Monies collected from the MIPAC donations are used in supporting political decision makers that will tackle the very issues that affect all members of our industry. As a good steward of our member's donations, MIPAC adheres to uniform contribution criteria when determining how much and

to which candidate assistance is allocated.

MIPAC will educate you about the political landscape and issues facing our organization and will strategize political impact. In addition, the committee is always open to suggestions, questions and comments.

Please send your quarterly donations to MIPAC, PO Box 9887, Naples, Florida 34101
